72 East Concord Street
L-601
Boston, MA 02118

Dear Dr. Ratner:

The Board of Directors is pleased to inform you that you have passed the 2018 ABT Certification Examination and are therefore certified as a Diplomate of the American Board of Toxicology, Inc.® This certification in general toxicology is valid for a period of five years. A certificate attesting to your achievement will be mailed to you. If you do not receive it by March 31, 2019, please contact the ABT office. Please note it will not be sent out before February 2019.

As a new Diplomate of ABT, your name and contact information will be included in the online searchable directory of Diplomates unless you inform us in writing of your desire to opt out. Furthermore, your **name only** can be released to the public or other organizations. Please be sure to visit your profile on the ABT website to ensure the correct address is listed. We need this information by December 15, 2018 so that your certificate can be mailed to the correct address. In the future, if your contact information changes, please be aware that it is the responsibility of the Diplomate to ensure that changes of address are communicated to the office of the ABT and updated in their online account.

In 2022, you will begin the recertification process. One of the performance criteria for recertification is Continuing Education. The Board requires that all Diplomates maintain a record of continuing education activities to ensure a complete and accurate evaluation of these activities. Activities must be recorded in the ABT online tracking system. Please be sure to download the Recertification Handbook from the ABT website.

I am delighted to be the first to extend you the congratulations and good wishes of the Board and to welcome you to the distinguished group of toxicologists who are Diplomates of ABT.

Sincerely,

Amy Roe
Chair, Eligibility Committee
